Ref: Business Opportunity Rule, R511993

Dear Sir or Madam,

Your consideration of NPR # R511993 reflects an unawareness of a health crisis in America. While the FDA now steps forward to encourage healthier foods and smaller portions be served at eating establishments R511993 would counteract that health momentum by stifling health related sales network activities.

More than that this proposed rule would further erode freedom in America and undermine the livelihood of many.

Please, refrain from interfering in the free enterprise process.

Sincerely,

Signature: _____

Printed Name: _____

Address: _____

HANS FRISCHEISEN
